Dear Property Owner(s):

The property you own in Tuolumne County is identified on the tax roll by an Assessor's Parcel Number.

The first two digits of the Parcel Number represent a map book number, the second series of digits a page number, and the last digits your particular parcel number.

When the legal description of a parcel is changed because of the sale of a portion of the property, a corrected description in a deed, a suit for quiet title, or when any other document is recorded that changes the boundary of the property, the Assessor's Parcel Number must be changed.

The Parcel Number must also be changed when it becomes necessary for the Assessor to show the property in another map book or on another page in the map book.

Parcel Number(s) (See Following Page) formerly describing your property has been changed for the 1997/98 fiscal year to Parcel Number(s) (See Following Page) for the following reason(s):

### Boundary Line Adjustment

Should you have reason to inquire about your property, you will receive faster service if you include the above Parcel Number with your inquiry. Please do not hesitate to contact us if there is a question on the above.

SINCERELY,

DAVID W. WYNNE, ASSESSOR-RECORDER

Gentlemen:

### ASSIGNMENT OF STATEMENT OF WATER DIVERSION AND USE NOS. S010009 AND S010010 AND NOTICES OF APPLICATION TO APPROPRIATE WATER BY PERMIT

On August 24, 2001, the State Water Resources Control Board, Division of Water Rights (Division), sent out two Notices of Application to Appropriate Water by Permit filed by Six Mile Land Company and Thomson Family Trust. These Notices are sent to a list of persons and organizations who either have a water right issued by the Division or who have filed a Statement of Water Diversion and Use and are near or downstream of the proposed point(s) of diversion as stated in the Notice.

The Notices that were sent to one of the parties on our mailing list, Merck & Co., Inc. were returned to us undelivered. A cursory review of county assessors records indicates that you are the current owner of the properties formerly owned by Merck & Co., Inc., and Blue Mountain Minerals, Columbia Quarry, described on Statements of Water Diversion and Use (Nos. S010009 and S010010) that were filed in December 1979.

This letter is to request that you ask the former owners to sign the enclosed "Notice of Assignment for Statement of Water Diversion and Use" and return it to us. If this is impractical, we request that you send us a statement certifying that you are the present owner and assignee of the properties described in the enclosed Supplemental Statements of Water Diversion and Use, Statement Nos. S010009 and S010010, so that we may update our records.

If you have any questions, please contact me at (916) 341-5376, or by e-mail at [brigby@waterrights.swrcb.ca.gov](mailto:brigby@waterrights.swrcb.ca.gov).

## CHANGE OF NAME/ADDRESS OR OWNERSHIP

STATE WATER RESOURCES CONTROL BOARD

Regulations require the owner of a water right to directly notify the State Water Resources Control Board (State Water Board) with information regarding either a change in the name and/or address of the current water right holder or a change in ownership of the water right (Cal. Code Regs., Title 23, §830-831). All correspondence pertaining to a water right, including the bill for fees, is mailed to the owner (or agent) of record at the most recent address supplied to the State Water Board. Until such time as the State Water Board is notified of a change in ownership, the owner of record is liable for all fees and related charges assessed to the billing account.

To inform the State Water Board of any updates to the name or address of the current water right holder, please complete Box 1 and return this form to the Division of Water Rights at the address above. To inform the State Water Board of a change in ownership of a water right, please complete Boxes 1 and 2. If there are joint owners of this water right, you must provide the names and addresses of all joint owners and designate one person to receive all correspondence from the State Water Board regarding the joint application (Water Code, § 1290; Cal. Code Regs., Title 23, § 691.) For multiple owners, please attach additional sheets as necessary.

Re: SUPPLEMENTAL STATEMENT OF WATER DIVERSION AND USE: NOS.  
S010009, S010010, AND S013224.

Dear Ms. Perry:

You sent our company an email stating that our water right has been designated inactive because the Supplemental Statement of Water Diversion and Use had been returned unopened. I believe this is because we changed our mailing address from a post office box to our physical address about two years ago. Attached are the completed change of name/address or ownership forms from your website, so that our status can be promptly reactivated. I have also filled out and attached the only form I found on the website for a Statement of Water Diversion and Use, even though it is a slightly different form than the Supplemental Statement of Water Diversion and Use that I have filled out many times in the past.

I want to make it clear that our water use has never been inactive. We have been continually using water for the last 22 years from two springs that locally are called Lord and Vine Springs, and will continue to do so into the far future. Before we acquired this property, both these springs had been continuously used for the mining, processing, and washing of carbonate rock at this same location since 1852.

After looking at the eWRIMS database maps, it appears there is some confusion about which of the three springs is which. The attached map shows the locally used names for the springs.

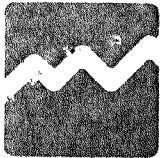

As it has been many years since we became owners of these properties, it is impractical to obtain the notice of assignment from the former owner of S010009, Merck & Co., Inc. We submit this letter in lieu of a notice of assignment. Please see the attached communications from 2001.

Acting in my capacity as President of Portola Minerals Company, dba Blue Mountain Minerals Company, I hereby certify that Blue Mountain Minerals is the present owner and assignee of the properties described in Statements of Water Diversion and Use, Statement Numbers S010009, and S010010, and S013224. We continue to assert all water rights described in those statements.

If you have any questions or comments, please call me at your earliest convenience at 533-0127.

Sincerely,

Carey Haughey  
President

**ASSIGNMENT OF STATEMENT OF WATER DIVERSION AND USE NOS.**  
**S0100009 AND S010010**

Dear Mr. Rigby:

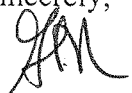

By letter dated October 30, 2001, you requested that we have the former owners of the "Blue Mountain Minerals Quarry" and the "Columbia Quarry" located in Tuolumne County sign a notice of assignment or, if this is impractical, to submit a statement certifying that we are the present owner and assignee of the properties described in Statements of Water Diversion and Use, Statement Nos. S010009 and S010010.

As it has been many years since we became owners of these properties, it is impractical to obtain the notice of assignment from the former owners. We submit this letter in lieu of a notice of assignment.

Acting in my capacity as President of Portola Minerals Company, dba Blue Mountain Minerals Company ("BMM") I hereby certify that BMM is the present owner and assignee of the properties described in Statements of Water Diversion and Use, Statement Nos. S010009 and S010010. We continue to assert all water rights described in those statements.

If you have any questions or comments, please call me at your earliest convenience at 533-0127.

Sincerely,

  
Gerald C. Nielsen  
President

P.S. As per the attached "Boundary line Adjustment" memo the assessors parcel number for the Columbia Quarry, which we purchased in 1995, is 032-660-0100. We now own all parcels on the attached map (032-660-0100 through 21) except for parcel 032-660-38.
